Meet the MCC Recruiters

Emily Dimet

Admissions Representative

Emily Dimet joined Montcalm Community College as an admissions representative in May 2020. She works with area high schools on general student recruitment as well as recruiting students into the college's dual enrollment program, which allows students to attend college while in high school to earn credits that satisfy high school graduation requirements as well as college requirements.

Before becoming an admissions representative, Dimet worked as a secondary math teacher, instructor for English as a second language, graduate assistant at Central Michigan University in the International Recruitment and Outreach Department, cake decorator, Zumba and yoga instructor and several other interesting jobs.

Dimet started her college career here at MCC as a dual enrolled student. She transferred to Northwood University where she received a Bachelor of Business Administration. Most recently, she earned her Master of Science in Administration from Central Michigan University.

One of Dimet's favorite things about being an admissions representative is that she is able to guide students to MCC and all of the incredible programs offered here.

"MCC is different in that we allow everyone who applies admission to the college. There are no barriers for entry so all people from our community can come here, find support and change their lives," she said. ■

Juan Granados

Admissions Representative

Juan Granados started at Montcalm Community College in July and has taken on the skilled trades and workforce admission representative role. Before coming to MCC, Juan worked as a college representative for Lakeview and Montabella high schools.

He has a bachelor's degree in Political Science/Pre-law from Michigan State University and a double minor in Chicano/Latino Studies and Latin American and Caribbean Studies.

Granados feels that MCC's offerings are "amazing and are a great option for many people." He enjoys explaining the opportunities available and helping people make the life-changing decision to go to college.

Some of his career goals are to increase enrollment at MCC and to help improve Montcalm County as a whole. He hopes to continue outreach in the area and letting the community know MCC is here for them.

"There are many counties that don't have the luxury of a community college and I want everyone to know we're here and we're ready to help them succeed," he said. ■
